SUMMARY

I am a self-motivated and driven graduate of Computer Science and Engineering with a GPA of 3.63, and throughout my career, I have focused on combining software engineering with teaching. In the last 4 years, I have been working towards becoming a better communicator as I have had hands-on experience with both mentoring and teaching in classrooms. Additionally, I have managed to hold key leadership positions by being General Secretary and Wing Manager of IUBAT IT Society, where I have organized important events and collaborated with diverse groups of people. Professionally, I have had the chance to work for companies such as Brain Station 23 PLC and Sentinel Technologies, which enabled me to bridge theory with practice. Furthermore, I have written papers as a published researcher and have the honor of being a certified mentor of Microsoft.

TEACHING & ACADEMIC SKILLS

- Classroom Teaching and Lesson Planning
- Curriculum Development
- Student Mentoring and Counseling
- Exam Preparation and Assessment
- Interactive Teaching Methods
- Academic Presentation Skills
- Educational Technology Integration

TECHNICAL SKILLS

- HTML
- CSS
- TailwindCSS
- MySQL
- ReactJS
- AngularJS
- Javascript
- MS Office Suite

SUBJECT EXPERTISE

- Information and Communication Technology (ICT)
- Computer Science Fundamentals
- Programming Basics
- Mathematics
- English Language
- Technical Skills

WORK EXPERIENCE

Junior Teacher | Daffodil International school

July 2026 - Present

Working as Junior Teacher at Daffodil International School

System Support Engineer | Sentinel Technologies LTD

November 2025 – July 2026

Working as a System Support Engineer at Sentinel Technologies LTD

Intern | Brain Station 23 PLC

August 2025 – November 2025

Worked as an intern at Brain Station 23 PLC on AngularJS.

TEACHING EXPERIENCE

January 2022–August 2025

Formal Teaching:

Junior Teacher at Daffodil International School: I am currently working as a Junior Teacher for Grade 2 at Daffodil International School, where I started in July 2026. My responsibilities include delivering lessons, managing classroom activities, supporting students in their academic development, and creating an engaging and supportive learning environment. I teach students following the school's curriculum and use appropriate teaching strategies and activities to help young learners understand concepts effectively.

Tutoring at Education Care Coaching Center: I worked as a tutor at this center, where I tutored ICT to HSC-level students. My duties included following a proper curriculum and assisting students in comprehending ICT to perform well in their board exams. Apart from this, I have also tutored individually for HSC-level students at my own home. Creating a conducive environment for learning allowed me to assist the students in understanding ICT-related topics that needed to be clarified by demonstration.

Mathematics and English Tutoring: I have tutored students privately at my own house for the last 4 years. My areas of expertise involve teaching Mathematics and English to classes of 7-10 students.

Non-formal Teaching:

Academic Mentoring at University Level: I have worked as an Academic Mentor for my junior students at my university. I have received certificates for being an academic mentor. I assisted them in their challenging academic courses, taught them how to study effectively, and offered the necessary assistance required for their higher studies. In this capacity, I delivered all the lectures in English.

EDUCATION

Bachelor of Computer Science & Engineering

October 2021 - October 2025

IUBAT-International University of Business Agriculture & Technology

CGPA: 3.63/4.00

Higher Secondary Certificate(H.S.C) in Science

July 2017–June 2019

Govt. Science College

GPA: 4.94/5.00

Secondary School Certificate(S.S.C) in Science

January 2015–April 2017

DCB Adarsha Biddya Niketon

GPA: 5.00/5.00

CERTIFICATION & TRAINING

- **Front-End Development – ICT Division (Govt. of Bangladesh)**
Completed government-certified training in modern front-end web development.
- **Mentorship – IUBAT IT Society - Summer 2022**
Recognized for guiding peers and contributing to student-led technology initiatives.
- **Mentorship – IUBAT IT Society - Fall 2022**
Recognized for guiding peers and contributing to student-led technology initiatives.
- **Volunteer – IUBAT IT Society - Spring 2025**
Recognized for contributions to event organization and coordination.

PROJECTS

AI Quiz Generator

Tech Stack: TypeScript, CSS, HTML, AngularJS, Python

Contribution: Developed the front-end using AngularJS.

This Project can generate quizzes from Local Videos, YouTube videos, and PDFs. Users can also generate multiple videos at a time by selecting the numerous video upload options. This project targets Brain Station 23 LMS.

ecommerce-app

Tech Stack: HTML, Angular.js, TypeScript, CSS

The project delivers a complete and modern online shopping experience, including functionalities like flash sales, a dynamic shopping cart, wishlist management, and secure user authentication. It showcases advanced Angular practices such as Standalone Components, reactive state management with Angular Signals, and internationalization (i18n) for multi-language support. The application is fully responsive with a mobile-first design, ensuring a seamless user experience across all devices.

EXTRA-CURRICULAR ACTIVITIES

- General Secretary - IUBAT IT Society(IITS) **June 2025 – October 2025**
- Manager, Academic Wing – IUBAT IT Society (IITS) **Aug 2023 – September 2024**
- Executive Member – BASIS Student Forum, IUBAT Chapter **August 2023 – September 2024**
- Researcher | Dreamers Lab **April 2023 – Present**
- Academic Mentor – IUBAT IT Society (IITS) **February 2022 – February 2025**
- Assistant Manager, Academic Wing – IUBAT IT Society (IITS) **February 2022 – February 2023**
